More luxury apartments for Bellevue

Journal staff

Le Chateau at Richards Creek, Continental-Bentall's latest luxury apartment development, opened over the weekend in Bellevue, and company Vice President Claudio Guincher calls it "the nicest we've built so far."

The two-building development at 2200 132nd Ave. S.E., is bordered by more than 5 acres of woodlands and features a resort-style pool and spa, the Grande Salon for parties and meetings, a fitness center, business center and underground parking.

Each unit has 9-foot ceilings. Monthly rents range from \$1,200 to \$2,200 for a three-bedroom, nearly 1,600-foot unit.

Continental-Bentall was the contractor, and the architect was Dwayne Kohler of Kohler Associates. HSC Real Estate is leasing and managing the property. The cost of the development was not released.
